

Why I voted Yes on H.R. 2076

I voted Yes on H.R. 2076, the Investigative Assistance for Violent Crimes Act. The bill would permit the Attorney General or the FBI to provide assistance to local law enforcement when requested for particular investigations. Assistance also would be allowed for investigations of mass killings. Additionally, the bill permits the AG to offer a maximum reward of \$3 million for public assistance in certain instances. I supported H.R. 2076 because it will enhance investigations for particularly gruesome crimes that can overwhelm local law enforcement agencies.
